

The original manufacturers of
RACKING AND SHELVING
FOR INDUSTRIAL AND COMMERCIAL
APPLICATIONS.

A COMPANY OVERVIEW

ACROW:

A name known throughout the world, is one of South Africa's largest storage and construction equipment manufacturers and have been the pioneers since 1946 of new ideas for reliable and efficient storage, materials handling and construction solutions.

GLOBAL

FOOT PRINT

Appointed representatives and agents available **both in South Africa, Africa and Internationally**

Branches and Warehouses:

South Africa

Cape Town Branch, Durban Branch.

International

We have an extensive network of business partners that can service the African Market.

STAFF:

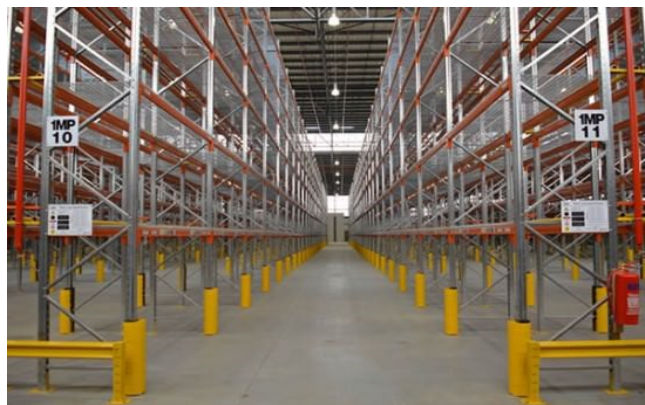

Acrow employs over 250 people and focusses on individual growth and development in accordance with MERSETA (Manufacturing, Engineering and Related Services Sector Education and Training Authority of South Africa).

PRODUCTS:

Acrow's focus is on Racking; Shelving; Scaffolding and Formwork. This means that all ACROW products are available in component form for self-assembly or are supplied as part of a professional design & installation service provided by ACROW. With the wide range of options and components available, all ACROW systems can be tailor-made to meet your precise needs.

All ACROW product batches are laboratory tested according to SABS ISO 9001: 2008 specifications and monitored for full traceability. In addition, ACROW manufactures according to SEMA, FEM and BS EN 15512:2009 standards.

We achieve our goals by providing an excellent initial and after sales service. Our products are developed constantly and are customized to the ever changing needs of warehousing, distribution and construction markets both locally and internationally.
